What is PowerSchool?
PowerSchool is our student information system. It allows us to manage information such as grades, attendance, demographics, courses, etc. Since PowerSchool is web-based, some of this information can be easily but safely shared with parents and students.

Do I need a separate login for each of my children?
Yes, you will receive a unique login for each child.

Is this system secure?
The system is very secure (and is the reason you have individual logins for each child).

What can I see inside the PowerSchool portal?
Parents can access the following information: Grades for current classes, attendance for the past two weeks or the whole trimester, teachers' comments, email access to teachers, various reports via email, and the school bulletin (not all schools use the bulletin feature yet).

How do I access Parent Portal?

Log in to PowerSchool Parent Portal: https://powerschool.sandi.net/

How do I get more help?
Parent Portal Access Contact Information:

      Laura Baca
      Guidance Assistant
